

# 30LBW-5009

## Surface Protection Film

**30LBW-5009** is a temporary medium tack protective film consisting of a self-wound low density polyethylene carrier. It is made with a water based acrylic adhesive. The protective film provides abrasion, tear and puncture resistance and is suitable for interior applications.

Available in white and black.

### Main Applications

---

Interior applications

Masking

Protecting

### Product Composition

---

**Backing** LDPE film

---

**Adhesive** Water based acrylic

---

**Colour**

---

### Technical Data

---

**Thickness** 3 mil

---

**Adhesion to steel** 5 - 9 oz/in

---

**Elongation at Break** 400-850%

---

**Tensile Strength** 2 200 to 3 400 lb/in  
3 850 to 5 950 N/cm

---

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should make their own test to determine the products suitability for their own intended use and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
